

### Product characteristics

120 lights, save electricity, double faced luminous, reduced volume, But brightness not change, economical and practical, easy installation, a new generation of flexible LED lights with new light color technology, for a living live a protean effect, let you into the new vision

### Application places:

Widely used in wall body contours, indoor environment decoration, entertainment venues, wine counter backlight, LED light box light source, LED card, outdoor advertising words, selection of the outdoor lighting and so on.

### Appearance of size:

Product model	LED color	Voltage	Electricity	Power	Number of leds	LED wavelength and color temperature	Light Angle	Appearance of size
MJ-385-120-220V-W	Warm white	220V	20mA	0W	120	3000-3200K	120°	8X18mm
MJ-385-120-220-W	White	220V	20mA	0W	120	6000-7000K	120°	8X18mm
MJ-385-120-220-G	Green	220V	20mA	0W	120	520-525K	120°	8X18mm
MJ-385-120-220-B	Blue	220V	20mA	0W	120	460-470K	120°	8X18mm
MJ-385-120-220-Y	Yellow	220V	20mA	0W	120	580-595K	120°	8X18mm
MJ-385-120-220-P	Pink	220V	20mA	0W	120	380-440K	120°	8X18mm
MJ-385-120-220-R	Red	220V	20mA	5.5W	120	620-630K	120°	8X18mm

### Product characteristics

Flexible LED lamp belt, a breakthrough of traditional circular design, make the light angle change from the traditional 180° to now 320°, thereby the light angle of light strip is bigger; Than traditional neon lights, LED rainbow tube and the LED lamps and lanterns with stability, reliability, security, low power consumption, long life, transportation and installation more convenient, green environmental protection, such as the advantage of waterproof and uv protection, a ideal substitute for traditional neon lights.

### Application places:

Widely used in wall body contours, indoor environment decoration, entertainment venues, wine counter backlight, LED light box light source, LED and aquatic animals supplies, car decoration and so on.

### Appearance of size:

Product model	LED color	Voltage	Electricity	Power	Number of leds	LED wavelength and color temperature	Light Angle	Appearance of size
MJ-385-120-220-W	Warm white	220V	20mA	0W	120	3000-3200K	320°	φ18mm
MJ-385-120-220-W	White	220V	20mA	0W	120	6000-7000K	320°	φ18mm
MJ-385-120-220-G	Green	220V	20mA	0W	120	520-525K	320°	φ18mm
MJ-385-120-220-B	Blue	220V	20mA	0W	120	460-470K	320°	φ18mm
MJ-385-120-220-Y	Yellow	220V	20mA	0W	120	580-595K	320°	φ18mm
MJ-385-120-220-P	Pink	220V	20mA	0W	120	380-440K	320°	φ18mm
MJ-385-120-220-R	Red	220V	20mA	5.5W	120	620-630K	320°	φ18mm

## SMD mini flexible neon light strip

### Product characteristics

Mini lamp with all the features, 120 lights, save electricity, smaller volume, but brightness not change, economical and practical. Easy installation, a new generation of flexible LED lights with new light color technology, for a living Live a pleasant effect, let you into the new vision.

### Application places:

Widely used in wall body contours, indoor environment decoration, casino, wine counter backlight, LED light box light source, LED, Aquatic products, car decoration and so on.

Appearance of size:

Product model	LED color	Voltage	Electricity	Power	Number of leds	LED wavelength and color temperature	Light Angle	Appearance of size
HJ-285-120-220V-W	White	220V	20mA	9W	120	3000-3200K	120°	8X18mm
HJ-285-120-220V-W	White	220V	20mA	9W	120	6000-7000K	120°	8X18mm
HJ-285-120-220V-G	Green	220V	20mA	9W	120	520-530K	120°	8X18mm
HJ-285-120-220V-B	Blue	220V	20mA	9W	120	465-470K	120°	8X18mm
HJ-285-120-220V-Y	Yellow	220V	20mA	9W	120	580-590K	120°	8X18mm
HJ-285-120-220V-P	Pink	220V	20mA	9W	120	380-440K	120°	8X18mm
HJ-285-120-220V-R	Red	220V	20mA	8.5W	120	750-800K	120°	8X18mm

## LED flexible neon light strip

### Product characteristics

The latest LED flexible strip is also called flexible neon tube, is the hottest breakthrough product of LED. The appearance is make up for the shortage of glass neon tube and optical fiber, so as to completely replace. Relative glass neon tube, flexible neon tube has the following:

- 1, to bend, can be arbitrary fixed in a rough place
- 2, small volume, color is rich, according to the customer request make it red, yellow, blue, green and white.
- 3, 12 x every three lamp can be composed of a group of circuits, low current, low power consumption, energy saving and beautiful. This product has good waterproof performance, using low voltage dc power supply, safe and convenient, a variety of light color, colorful.

### Application places:

Widely used in wall body contours, indoor environment decoration, entertainment venues, wine counter backlight, LED light box light source, LED and aquatic animals supplies, car decoration and so on.

Appearance of size:

Product model	LED color	Voltage	Electricity	Power	Number of leds	LED wavelength and color temperature	Light Angle	Appearance of size
HJ-285-120-220V-W	White	220V	20mA	9W	120	3000-3200K	120°	15X25mm
HJ-285-120-220V-W	White	220V	20mA	9W	120	6000-7000K	120°	15X25mm
HJ-285-120-220V-G	Green	220V	20mA	9W	120	520-530K	120°	15X25mm
HJ-285-120-220V-B	Blue	220V	20mA	9W	120	465-470K	120°	15X25mm
HJ-285-120-220V-Y	Yellow	220V	20mA	9W	120	580-590K	120°	15X25mm
HJ-285-120-220V-P	Pink	220V	20mA	9W	120	380-440K	120°	15X25mm
HJ-285-120-220V-R	Red	220V	20mA	8.5W	120	750-800K	120°	15X25mm
HJ-285-180-220V-4/8	7 color	220V	20mA	14.4W	180	465-8000K	120°	15X25mm
